

LedgerGuard™ Reconciler v2.1

High-throughput sovereign forensic engine for Chartered Accountants & Tax Auditors. Reconciles **GSTR-2B government filings vs client Purchase Registers** in seconds with 100% offline data sovereignty.

< 3.0s	100%	Unlimited	₹0 / Mo
10K INVOICES MATCHED	DATA SOVEREIGNTY	CLIENT FIRM PROFILES	NO PER-CLIENT RENT

🔍 Mathematical Fuzzy Invoice Matcher

Cross-matches GSTIN, invoice numbers, dates, and amounts with intelligent tolerance rules. Catches ITC mismatches and unfiled vendor returns instantly.

🛡️ 100% Air-Gapped Client Privacy

Client books, banking ledgers, and PAN details NEVER leave your office machine. Zero cloud uploads, zero SaaS data leakage, 100% ICAI compliance.

📊 Automated ITC Loss Recovery Forensics

Pinpoints exactly which suppliers failed to upload invoices to GSTN, protecting your clients from interest penalties and lost Input Tax Credit.

📑 1-Click Excel & Tally Export

Exports beautifully formatted audit schedules ready for client sign-off, board review, or GST department scrutiny replies with zero manual re-entry.

KERNEL: SIMD-Vectorized Rust Engine **COMPATIBILITY:** Tally Prime, Excel, CSV, JSON **LICENSE:** Sovereign Machine-Locked
