AIR-GAPPED SOVEREIGN COMPUTING ARCHITECTURE

Air-Gapped Workstation Engineering • Complete Local Data Privacy • Perpetual Lifetime Ownership

100% PURE RUST PE32+

100% Offline Local Execution • Zero Cloud Dependency

Every commercial suite is engineered in 100% pure native Rust with compile-time memory safety. Zero Electron memory leaks, zero Python runtime interpreters, zero Node.js bloat. Features direct Win32 hardware acceleration, local SQLite WAL append-only ledgers, and air-gapped cryptographic hardware-attested licensing (`license.rql`). Thoroughly tested against rigorous enterprise performance benchmarks.

Govt. MSME: UDYAM-BR-26-0258772 | < 1ms Rust Latency | SQLite WAL Cluster | Enterprise Security Attested | WDSI COMPLETED • VERIFIED CLEAN (All 16 Suites) | Zero Monthly Subscriptions

Air-Gapped Privacy

Zero external network pings. Sensitive dossiers, audio recordings, and ledgers remain strictly on workstation RAM.

Perpetual Ownership

Pay once on Gumroad, own permanently. Zero monthly subscription fees, zero per-seat taxes, zero forced vendor price hikes.

Sub-Millisecond Speed

Direct native execution on your computer with < 0.8s boot latency, minimal RAM footprint (< 25MB), and instantaneous UI response.

14-Day Sovereign Guarantee

100% unconditional refund. If any tool fails to boot instantly or eliminate recurring SaaS expenses, full refund immediately.

RQL DocumentShield™

$179 USD / ₹14,900 INR

100% Offline PDF Redaction & Metadata Cleaner • Deep Sanitization • Zero Cloud

100% PRIVATE & OFFLINE: Zero Telemetry • Clean Local File Processing

Replaces Adobe Acrobat Pro ($240/yr) Forever

True Byte-Stream Redaction

Physically scrubs text, images, and vector paths from the underlying PDF stream. Never places black rectangular masks that can be selected and copied.

Deep Metadata & XMP Purge

Eradicates author history, software signatures, GPS coordinates, revisions, and printer serial tags across all PDF streams in under 8ms.

Hardware AES-256 Locking

Implements industry-standard AES 256-bit encryption with granular permission flags (disable print, disable text extraction, disable form edits).

Professional Watermarking & Audit Seals

Stamps dynamic non-removable diagonal watermarks with client name, timestamp, and SHA-256 document verification hashes directly into canvas.

Win32 Native Rust PE32+ (x86_64)	100% Offline Physical Execution	Air-Gapped • Zero Cloud Telemetry	Tally Prime (₹18,000/yr) • Saves +$770

RQL TaxLedger™ (Powerhouse Edition) closes your annual Indian Financial Year (Apr–Mar), generates schema-compliant GSTR-1 portal JSON uploads, cross-references GSTR-2B Input Tax Credit, and maintains an immutable MCA audit trail in seconds — 100% offline with zero cloud risk. Built in pure native Rust for Windows, your private accounting books, client ledgers, and tax schedules stay locked on local hardware with zero recurring monthly subscription rent.

Direct GSTR-1 Portal JSON Exporter

Generates official schema-compliant Tables 4 (B2B), 7 (B2C), and 12 (HSN) JSON files ready for direct 1-click upload to the GST Portal — eliminates ₹12,000/yr ClearTax subscriptions.

GSTR-2B ITC Protector & Reconciler

Enforces CGST Section 16(2)(aa) by cross-referencing supplier GSTR-2B datasets against your purchase ledger, locking down ineligible Input Tax Credit before audit notices hit.

Section 44ADA Presumptive Calculator

Automated presumptive taxation simulator computing exact advance tax quarterly schedules (15-45-75-100%) and Section 234B/C interest avoidance for consultants and doctors.

Cryptographic MCA Audit Trail Law

Enforces Ministry of Corporate Affairs (MCA) Rule 11(g) compliance with an immutable, append-only SHA-256 ledger audit trail proving 100% tamper-evident statutory integrity.

RQL FileShredder™ (Military Sanitization Edition) v1.0

DoD 5220.22-M Multi-Pass Digital Data Eraser • Gutmann 35-Pass Forensic Evidentiary Sanitizer

$59 USD / ₹4,999 INR

Engine Architecture Win32 Native Rust PE32+ (x86_64)	Execution Mode 100% Offline Physical Execution	Data Protection Air-Gapped • Zero Cloud Telemetry	Commercial Anchor Blancco Data Eraser ($96/yr) • Saves +$229

Standard Windows "Delete" and "Empty Recycle Bin" only remove filesystem pointers, leaving 100% of your private data easily recoverable by forensic scrapers. RQL FileShredder™ permanently obliterates confidential legal briefs, client databases, audit schedules, and cryptographic keys using DoD 5220.22-M 7-pass and Peter Gutmann 35-pass physical sector overwriting. Built in 100% pure native Rust for zero telemetry.

DoD 5220.22-M 7-Pass Overwriting

Complies with US Department of Defense 5220.22-M (ECE) standard, executing alternating pseudorandom byte streams and bit-inversion passes across physical sectors.

Peter Gutmann 35-Pass Forensic Wipe

Maximum evidentiary destruction protocol performing 35 sophisticated harmonic passes designed to neutralize magnetic force microscopy (MFM) lab data recovery.

Cluster Tip & Slack Space Scrubber

Wipes residual slack space bytes remaining between file boundaries and physical hard drive sectors where forensic software routinely recovers deleted fragments.

Forensic Destruction Audit Certificate

Generates court-admissible vector PDF destruction certificates with dual SHA-256 pre/post cryptographic hashes for corporate audit compliance.

Engine Architecture Win32 Native Rust PE32+ (x86_64)	Execution Mode 100% Offline Physical Execution	Data Protection Air-Gapped • ZeroCommercial Cloud Telemetry	Anchor Paste App ($48/yr) • Saves +$105

Standard clipboard managers secretly sync copied passwords, private API tokens, bank accounts, and client correspondence to remote cloud servers. RQL ClipVault™ keeps every copied byte strictly encrypted on your local physical silicon using authenticated AES-256 encryption. Features instant fuzzy search, sensitive credential masking, and automatic multi-format history buffers with zero internet pings.

100% Air-Gapped AES-256 Storage

Stores all copied text snippets, code, images, and formatting in local encrypted RAM and NVMe database. Never phones home and zero cloud telemetry.

Sensitive Token & Password Masking

Automatically detects credit cards, API keys, JWT tokens, and passwords, masking them in the clipboard UI and auto-expiring temporary sensitive clips.

Sub-Millisecond Fuzzy Global Search

Find any snippet copied weeks ago instantly with lightning-fast fuzzy keyword search across 50,000+ cached items with zero keystroke lag.

Multi-Format Clipboard History

Maintains rich history across Plain Text, Rich Text (RTF), HTML, vector SVG, and PNG image clips with 1-click plain text format stripping.
